

BANKER WHO LED DUAL LIFE HELD AS JAIL BREAKER

Socially Prominent, He Operated in Different Cities—
Has \$500,000 Fortune.

ST. LOUIS, Aug. 26.—After maintaining for years a dual identity of banker and prominent citizen of Forest City, Ark., and an alleged forger of really documents in other parts of the country, John W. Kline of St. Louis was arrested here today. He has confessed, according to detectives, of swindling aggregating more than \$500,000.

As a bank director in the Arkansas city Kline was known as John W. Barnhardt. He had been urged to become a candidate for a member of the State Senate. He and his family were socially prominent.

Kline, or Barnhardt, was arrested here last night. He had escaped jail two weeks ago, the police said, from Waukegan, Wis., where his methods in attempting to mortgage property brought him under suspicion.

SEVEN-YEAR-OLD GIRL SWIMS DELAWARE RIVER

Ethel Schutt Covers Two Miles in
31 Minutes, Buffeting Strong
Tide and Choppy Water.

PHILADELPHIA, Aug. 30.—Ethel Schutt, seven years old, who weighs fifty-two pounds, swam the Delaware River from Race Street wharf to Mathis' shipyard, Camden, yesterday in thirty-one minutes. The distance in a straight line is one and a half miles. The child is the daughter of Mr. and Mrs. John Schutt, No. 2305 North Twenty-second Street. Her swim is the more remarkable because of hard conditions under which it was made. She didn't enter the water until more than an hour after the turn of the tide and the cool wind blowing up river made the water choppy, and the tide carried her out of her course, so that she swam at least two miles to make the Jersey shore. Her performance is a record.

With Ethel in the water were two other girl swimmers. They were Sophia Brown, thirteen years old, and Helen Pennypacker, twelve years old. Both easily made the distance.

'AERO CITY' PLANNED HERE AS WAR DEFENSE

City Will Be Founded at Sheepshead Bay to Supply Army
With Trained Aviators.

An "aero city" that would be the base of New York's sky defenses in case of war is being planned for Sheepshead Bay. The project has the endorsement of the Aero Club of America and the American Society of Aeronautic Engineers. Everett Thompson, civil engineer, who designed the Yale Bowl and the Sheepshead Bay Speedway, is designing the concrete "aero city."

The "city" will consist of factories, hangars, training facilities for aviators and residences for the experts and the aviation recruits.

Many of the best aviators in the United States have been lured to Europe by high pay for their services in training soldiers in the operation of aeroplanes. One purpose of the Sheepshead Bay "aero city" would be to bring into existence a big reserve of aviators in this country.

WILL DANCE FOR CHARITY.

Home of Sons and Daughters of Israel to Have Benefit.

An event awaited with keen anticipation by lower east and west side dancing folks. Is the big charity ball to be held next Saturday night at Tammany Hall, Fourteenth Street and Third Avenue, for the benefit of the Home of the Sons and Daughters of Israel, at No. 232 East Tenth Street.

The Young Folks Junior Auxiliary, which is giving the ball, has been trying its utmost to make the affair the "best ever."

The home of the Sons and Daughters of Israel is an east side charitable institution where poor and aged adults are cared for. During the last year there was such a demand for accommodation that a larger institution will be erected.

The officers are: Max Hugel, President; William Hecker, Vice President; Benjamin Linder, Secretary; Frank Halper, Treasurer, and Moses Koslin and Morris Hugel, trustees.

Are You Ready For Your Trip? Take HORLICK'S Malted Milk

with you when Yachting, Camping, Motoring, Fishing or Golfing. A nutritious, satisfying Food-Drink ready in a moment. A good light lunch when tired or run down. Simply dissolve in water, hot or cold. A fine night's rest is assured if you take a cupful hot before retiring.

Our Lunch Tablets are the same of convenient nourishment. Dissolve a few in the mouth when fatigued or hungry. Sample free, HORLICK'S, Racine, Wis.

HOME GYMNASIUM FOR WOMEN

To Preserve Health, Strength and Figure

A New Series of Illustrated Lessons, Showing How Every Woman May Have an Inexpensively Equipped Gymnasium in Her Own Home, and Teaching Games and Exercises Which Promote Excellent Physical Condition.

FINDING AND ARRANGING THE HOME GYMNASIUM
By Pauline Furlong.
The Evening World's Authority on All Questions of Woman's Physical Well Being.

In reading my articles and following my lessons for reducing and developing, I feel reasonably sure that many women have learned by this time that the expense attached to the entire course was the very least consideration. The diet alone, if followed, should show an increase in your savings as well as improvement in your general health.

Each reader may have a complete gymnasium within reach of both pocketbook and time. It is not at all necessary to join an athletic school or a gymnasium class in order to keep in physical trim. Sunshine and fresh air are the first essentials in the home gymnasium that I shall help you furnish.

We shall find a nook or corner in every home for milady to practice her breathing and exercises each day in comparative comfort and seclusion. Surely some of you have a flat roof to your house or apartment which may be easily reached. Or perhaps you have a restful back, front or side porch. Others will find a convenient lawn, and this one of my followers is the most fortunate of all. Again, as a last, but by no means least, resort you have your own bedroom with windows and transoms opened wide to allow a strong current of fresh air to circulate.

I hope to induce all of my readers to regard exercise, deep breathing and simple diet as among the important things in their daily lives and give them as much time and thought as they have been giving to rest, pleasure, bathing and ordinary habits and duties of life.

For this reason I am anxious to help each of you "build" a little place of your own to allow you a few minutes a day for health's sake. I feel that if you see your gymnasium and its simple equipment constantly before you it will be a double incentive to keep right on and make these lessons I have given you a daily duty and habit.

We all know that the average person enthusiastically begins almost any undertaking, and especially is this true of physical culture exercises and diet. But the results are slow and often tiresome to obtain. This is another good reason why I want you to have your own gymnasium fitted up to remind you each day, just as the other rooms are furnished to allow you every convenience for sewing, cooking, reading or resting.

On the floor of your little gymnasium place a soft rug, and over this a sheet, when exercising, to prevent breathing in the dust. Open the windows, if indoors, just as far from the top as from the bottom. This allows the air to circulate freely and gives you the exhilarating air bath so necessary to health. Do not be afraid of catching cold, for two minutes of exercise and deep breathing will stir your blood and warm you.

Wear as few clothes as possible when practicing your daily exercises, but if the floor is very cold put on a pair of soft warm slippers.

Having selected a suitable place for your home gymnasium, tomorrow we shall begin using it to good advantage. Day by day we shall add to its equipment such apparatus as we shall require for our different forms of exercises. Much of this equipment you already have in your own home. The rest in each case can be obtained at very little cost.

To-morrow, our first day in the "home gymnasium," we will undertake a very simple but extremely beneficial exercise, the "Turkish towel rub." The picture published to-day shows the only thing required for this exercise—a stout Turkish towel.

I almost forgot to say that I hope

blackheads and light foods, exclude fruits and drink much water. Do not allow constipation to exist, and avoid sweets, pastries, oils and alcohol.

REDUCING THE BUST.
Mrs. B. I. asks: "Will please name a good exercise to reduce the bust?"

A general reduction of the entire body is the ONLY way to reduce the bust. The fat will gradually leave this part of the body just as it leaves the legs and arms. Atom solution or alcohol will harden the breast. They are both astringents and will probably reduce the breast very slightly.

Hard work and interior treatment are the only real means, however.

A. F. Q. (Cleveland) writes: "I am fifty years old. Five feet three and weigh 130 pounds. I can do the leg curling and swinging with ease and raise one leg at right angles with the body, as you do, with ease, but I cannot do the chest raising. I go right down flat on my face. What causes this, and will any exercise lead up to my mastering it?"

You should not weight over 120 pounds. Chest raising is a strenuous exercise. Try it first standing several feet from the wall and lower the chest to the wall gradually. This is the one used for beginners. You will find it will strengthen the upper arms and this is what you need.

Levy to Quit Bench to Report.
It was reported to-day that Municipal Court Judge Aaron J. Levy is to resign because the salary of \$2,000 is insufficient, and because he has been offered a large fee to defend ten blackmailers arrested on a charge of blackmail growing out of the strike of about eight months ago. Levy became majority leader of the Assembly when Fulton was elected Governor, and was active in his impeachment.

LAST DAY! LAST DAY!

Of the Mid-Summer Furniture Sale

HALF PRICE FOR ONE DAY ONLY

Much can be accomplished in a few hours. To-morrow spent in our Furniture Sections going over the thousands of dollars worth of Quality Furniture, which is reduced for this event will be a revelation to you.

The pieces have been reduced $\frac{1}{4}$ to $\frac{1}{2}$, to make room for new stocks arriving daily. You can save enough in this one day to furnish another room or perhaps to apply on the curtains and rugs to be bought later.

Of course the higher prices which will prevail after 5 o'clock to-morrow will be moderate considering the quality, the skilled cabinet work and the construction of the furniture. But for one day more

You Can Save $\frac{1}{2}$ on All This Quality Furniture
